That is why we have introduced our new HealthProtect scheme.

Our HealthProtect scheme is the only scheme on the market specifically designed to give you the option to protect your waiting periods until you are in a position to return to your mainstream QUINN-healthcare private health insurance scheme.

In addition to this, if you have to stay overnight in a public hospital, you are usually charged €75 per night up to a maximum of €750 in any 12 month period. With HealthProtect you are covered for this hospital charge.

And when you decide to return to your private healthcare scheme talk to us and we'll be happy to advise you on your options. With cover **from only €1.07 a day**, there will always be a scheme to suit your needs.
